

GETA 2018 Spring Symposium

Monday, April 23rd, 1-5 PM

California EPA Building, Room 550
1001 I Street, Sacramento, CA 95814

DNA: Damage, Repair and Replication

Dr. Miral Dizdaroglu, National Institute of Standards and Technology: “Oxidative DNA damage: Mechanisms, measurement and biological consequences”

Dr. Anne Britt, University of California Davis: “SOG1 (Suppressor of gamma response 1) links DNA damage detection and organ regeneration in plants”

Dr. Mariel Vazquez, University of California Davis: “Packing, folding and simplifying DNA topology”

To Present a Poster, please email: ssanchez0618@berkeley.edu
